## Kristianna Smith's Lineage Map **INTENTION:**

The intention of this document is to share, as best as possible, the path and influences that lead me to my current work. It's a map, and I believe this more accurately captures me than any information found in a 10 page CV or one page resume. The people and moments I've identified are ones which had a significant impact on me and my trajectory. Sometimes they are singular, sometimes they are the thing that helped part of me go from seed to seedling. Links to the work of people mentioned here at **bit.ly/KristiannaLineageMapResources**
